

HANDHELD METAL DETECTORS.

MODEL SK-999

- Single push-button operation. (Fatigue free operation)
- Automatic tuning.
- Highly sensitive--Weapons screening system.
- Fast scanning rate.
- No false alarms.
- Large coil for wide coverage.
- LED indicator with audio alarm.
- Works for > 200 hours on 9 V Alkaline battery.
- Lightweight < 300 gms.
- Detects ferrous and non ferrous.
- Rechargeable battery (Optional)
- Operating temperature -30°c to $+55^{\circ}\text{c}$

MODEL H 2099 (LCD)

- Light weight < 500 grams
- Auto calibration
- Audio alarm proportional to the size of the metal
- LCD display
- Detects ferrous & non-ferrous metal
- Dual battery (rechargeable and dry battery) with auto change over
- SMPS in built charger
- Works for > 80 hrs
- Two tones audio alarm (distinct tone for ferrite)
- Area of search coil: 125sq.Cm (Min)
- Length of Detector : 400 mm (max)
- Lengths of Search coil : 340 mm (max)
- Vibration (Optional)
- Ear phone (Optional)
- Operating temperature -30°c to $+55^{\circ}\text{c}$

MODEL H 2099 (LED)

- Light weight < 500 grams
- Auto calibration
- Audio alarm proportional to the size of the metal
- LED display
- Detects ferrous & non-ferrous metal
- Dual battery (rechargeable+ dry battery)
- SMPS in built charger
- Works for > 80 hrs
- Two tones audio alarm (distinct tone for ferrite)
- Area of search coil: 125sq.Cm (Min)
- Length of Detector : 400 mm (max)
- Lengths of Search coil : 340 mm (max)
- Ear phone (Optional)
- Vibration (Optional)
- Operating temperature -30°c to $+55^{\circ}\text{c}$
