

BOMB DISPOSAL EQUIPMENTS

HOOK & LINE SET

- Main Line** Its 5 mm dia with a minimum braking strength of 750 Kgs. Its length is 100 mtrs and two different Colours -2nos.
- Reel** It is fitted with a rewind handle and adjustable clutch. Its diameter 300 mm (approx). It is capable to store and deploy a line of 5 mm Dia and 100 mtrs. Length.
- Fish Hook** Its sharply pointed barbed hook for piercing plastic and fabric. Its over all length 60 mm (approx.)
- Plain hooks** Plain tang 12 mm dia, 25 mm dia, 50 mm dia. with a screw stud.
- Barbed tang** 12 mm dia, 25 mm dia, 50 mm dia. with a screw stud.
- Pulling handle** Weight 250 gms approx. able to grip a line of nearly 5 mm dia
- Scissors** For gripping thin flexible material with minimal disturbance, length 170 mm approx.
- Telescopic Pole** Pole is light weight and extendable upto 3 mtrs, fitted with stud to load a hook. & hook
- Spring Grip** Jaws open to a maximum of 25 mm, fitted with wire cable with and eye for line attachment. Made of plated steel, 100 m length with 350 mm wire cable and should be light.
- Allen Grip** Length 200 mm approx with 50 Kgs braking strength and able to seize the edges of heavy sheet materials.
- Jaw Grip** Able to lock on to hard edges, fitted with an eye for attaching a line. Jaw opening 25 mm, length 250 mm.
- Belt Sling** Load strength 600 Kgs. made of polyester.
- Rope sling** 2 mtrs length, dia mm to 5 mm, dia mm to 4 mm, dia mm to 3 mm polyester rope with soft eye at each end.
- Wire Sling** 2 mm long galvanized steel wire with soft eye at one end and rigid eye at other. Dia 1.5 to 3 mm.
- Shock Cord** Dia 10-12 mm, length 1 to 2 mtrs. Steel hook fitted with each end.
- Karabiner** 15 mm to 24 mm gate with maximum load strength 2500 Kgs.
- Snatch block** It's a pulley with spring loaded latch fitted with an eye for attaching to anchor point and for Use with 5 mm line, 1350 Kgs lifting strength.
- Self opening Snatch block** It should have automatic release mechanism to free the line and change its direction at a point. Load capacity 200 Kgs. Able to be used with 5 mm dia line.
- Rough Terrain Sledge** For collecting small cases and packages around obstacles. Able to accommodate packages upto 500 mm wide. Weight 1.5 Kg.
- Ground Anchor** Length 30 cm to 100 cms, made of steel with and eye for attaching a line
- Cork screw stake** Able to provide an anchor in firm ground and fitted with a eye. Length 40 cms.
- Suction and anchors** Two suction pad anchors to give a powerful grip to flat surfaces like metal or glass. Both should have eyes for attaching line.
- Self Adhesive Pad Anchor** To be used as an anchor point on dry surfaces.
- Doorway anchor:** To provide anchor points at door and windows. Fitted with locking mechanism and eyes for attaching with snatch Blocks.
- Line Branch** Its an eye that can be clamped on a line to provide a fixing point for another line.
- Pitons** Able to be driven into walls and floors to provide anchor points for snatch blocks. Length 50 to 80 mm, thickness 1.5 to 10 mm.
- Sliding Bar Clamp Anchor** Able to provide convenient anchor points at doors and windows, eye at the center and each end of its bar for attachment with snatch block.
- Screw Eye** Length 65 mm, eye dia 20 mm.
- EOD Crimping Tool** For cutting firing lines.
- Pocket tool set** Made of steel, 11 piece tool set in pocket knife style package.
- Door Wedge** Made of rubber with length 120 mm.
