

DOOR FRAME METAL DETECTOR

MULTI ZONE METAL DETECTOR MODEL SK-CHECK-999

Model SK-CHECK-999-----is a 9 (Nine) zone metal detector. Door frame metal detectors detect ferrous, non ferrous metal and their alloys. It detects a pistol even when concealed in ferrite rods in all six possible orientations at all speeds. Two door frames can be placed near by. Door frame is made up of FRP. The complete electronics is placed on the top of the frame with plug in card systems and IR sensors to avoid out side movement alarms.

9 zones over- lapping zones with left Top, Center Top, Right Top, Left middle, Center Middle, Right Middle, Left Bottom, Center Bottom, and Right Bottom.

- AUTO TUNNING / CALIBRATION/ SETTING
- Advanced Microprocessor.
- Quick and Easy to install.
- Membrane switches and Backlit LCD.
- Uniform detection from Top to Bottom.
- It has general immunity to electro magnetically noisy environments.
- The DFMD is completely weather proof, rugged and designed for trouble free long life.
- Password protected along with mechanical key.
- RS 232 compactable.(OPTINAL)
- Traffic thru LED indicator.

Technical features:

Technology	Micro processor
Tuning	Auto Setting
Zone	9 (Nine)
Visual Display	LCD/LED
Audio	Multiple
Counter	5 digit
Sensor	IR
Sensitivity level	0 to 20
Low battery	Indicator
Controls	Volume, tone, sensitivity
Ups	> 20 hrs
Power	230 VAC ± 15%, 50 Hz
Battery	6 V rechargeable
SMPS	90 V to 270 V
Operating temperature	-20°C to +55° C

Physical features

Size	80 X 200 cm approx
Weight	Approx 50 Kgs
